A Large Crowd Witnessed the Richmond Team Turn the Tables on the Mountalneers at West-End Park.

Revenge is sweet, remarked a cultured "rooter" yesterday evening when the home team administered their second defeat to the mountaineers.

A large crowd filled the bleacheries, while in the grand stand a goodly contingent of the fair sex lent their smiles to cheer the "Bloody-shirts" on to victory.

The game was a thoroughly interesting one, although it was evident after the third inning that Senator Zeigler and his

village pets were not in it.

The home team had on their hatting clothes. They knocked Ewig out of the box in the sixth inning. Altogether they acored seven hits, with a total of thirteen bases, while the visitors got nine hits, with a total of fourteen bases.

In spite of the fact that they were outbatted, the nome team won by superior work in the field, having only three errors

work in the head, the characters to the mountaineers' seven.
Clark took a vacation. He and Senator Zeigler seemed determined not to have anything to do with the ball whenever it came their way, for they handled the sphere very much after the manner in sphere very much after the manner in

which one would handle a hot potato.

Arther caught a good game. He is certainly a hard worker, and plays the game for what it is worth. Thompson, in right, also showed that he is a fielder of no mean ability. For the home team West carried off the honors. He made two singles and a home run. He also had singles and a home run. He also had six put-outs and four assists.

IT WAS THUS.

Kain was given his base on balls. He went to second on Warmsley's sacrifice. Foster flew out to centre; Kain started to

For the visitors, Clark flew out to West; Scherer made a base-lit, but died short to second on Arther's grounder; Little went out, West to Tate.

In the second, Morgan waited for four balls, Arther threw wild to catch him at second, allowing him to score on a wild return by Scherer. Luck was given his base on balls, he went to second on Annony's sacrifice to Little, Kain flew out to Zeigler, Wormsley went to first on Clark's error, Luck scoring. Foster made a base-hit, Tate struck out. given his base, Fultz fouled out, Thompson got in a single, sending Hartwick to second, but he was thrown out on Ewig's grounder by Anthony to Kain, Clark

home team made two runs in the third, the mountaineers followed suit with a similar number. In the fourth and fifth both sides were blanked. In the sixth the home team added four to their pile on Wormsley's two bagger, assisted by Clark and Zeigler's errors, and a general misunderstanding on the part of the Villagers.

The seventh gave the visitors two runs on hits by Little, Zeigler, Hartwick, and Fultz. The home team got one and their last run in the eighth on errors by Clark and Hartwick. The mountaineers added one talley to their score in the ninth on Hartwicks two bagger and West's

The Richmond should feel justly proud of securing two games from such a team as Staunton, and if they continue as they have begun their chances for the pennant are very good. They will cross bats with the Roamoke team to-day, and a good game may be expected. Worms-ley will pitch for the home team, while McCay and Smith will be the visitors'

A SNAP FOR 'VARSITIES

Pennsylvanias.

UNIVERSITY OF VIRGINIA, April 25. Special.—The Varsity boys found another snap to-day in the Pennsylvania State College. As the men from the coal regions had been playing good ball this season a close game was expected; but the way in which the Orange and Eline flew around the bases in the first inning put all prospects of a tight score at an end. The chief trouble with the Pennsylvania people was their inability to hit Nelson, He had the ball under control throughout the game, and wound up the contest by striking out the last three men in one, two, three fashion. The sport was good. That the visitors succeeded in getting four runs was owing only to the Varsities big lead and the warm weather. The most remarkable feature about the men from Pennsylvania was the frequency with which they interchanged positions. These different combinations had no effect upon Virginia. They continued lining out hits and flying around the bases.

CONFICTS SEE AN EXECUTION.

Iwo of Their Number Swang Up in the Pentientlary Enclosure.

JACKSON, MISS., April 25 .- One hundred and fifty convicts saw two of their number, Henry Singleton and Horace Smith, hanged in the penitentiary enwere baptized and admitted to the Catho lie Church. Father Duro preceded them to the foot of the steps of the scaffolds which they mounted without a moment's hesitalon. Singleton appeared stoical and fixed his eyes in the blue sky above, never moving them. Smith had a half-jeering laugh on his face. Just before the trap sprang, under instructions from Father Duro, they repeated Christ's last words on the cross: "Into Thy hands, O Lord, I commend my spirit." Singleton's neck was broken and he died in two minutes. Smith died from strangulation in four-teen minutes, and suffered terribly. They made no statements from the gallows.

A Murderer Escapes Jail.

CHATTANOOGA, April 25.-Another chapter in the celebrated Scottsboro Aba., murder case developed this morning, when John Skelton, charged with the murder of Cashier Ross, of the Scottsboro Bank, overpowered the jailor, who was the son of the sheriff, and made good his escape. Blood hounds were telegraphed for from Chattanooga, and they were soon but woon the track and they were soon put upon the track of the escaped prisoner. After a run of ten miles over the country the sheriff's posse ran upon Shelton's brothers, who admitted that they had placed their brother on horse back and he had gone on ahead. The sheriff and posse are in hot pursuit and will likely capture Skelton before morning.

Sparrows bathe often, both in water and in dust. They are not so particular about the quality of the water as about the quality of the dust. They prefer clean water, but I have seen them take a bath in shallow pools that were quite muddy. The city sparrow must take a water bath where he can get it—in the streets or on the tops of houses—but he is most careful in his choice of his dust bath. Road dust, the dryest and finest possible suits him best. I have noticed the city sparrow taking his dust bath in the street, and invariably he chooses a place where the dust is like powder. Partridges prefer dry loam. They like to scratel out the soil from under the grass ant fill their feathers with cool earth. Host birds are fond of burnt ashes. An Artful Dodger. Every treatise upon loons dwells admiringly upon their wonderful powers of self-protection, says a writer in the Boston Transcript. There is no denying that all loons ever hatched up to date have been "artful dodgers" in superlative degree. The question is often raised whether they are quick enough to dodge a bullet. I once had a guide who drew a distinction quite too fine, as I thought. He claimed that a loon could see the flash He claimed that a loon could see the flash of a percussion cap at the breech of a muzzle-loading piece, and could dodge but admitted that with the rifle loaded like all modern ones, at the breech, no loon could escape a shot rightly aimed. For my part, I do not believe the interval of time between the fire at the two soles. of time between the fire at the two ends of the barrel to be measurable by eyes of birds or men, or anything short of a chronograph. As to the question, how-ever, it is possible to reason with tolerable confidence. We know the speed of a rifle bullet. Call it fourteen hundred feet a second. Imagine your loon at that dis-tance, or nearer. Then reflect how slowly a bird's head must move to use up more than a second in dropping a few inches under water. Gravity alone would carry t further than that. It is easy to believe that if the wary bird happens to be looking toward the hunter, the rifle flash suggests danger. A half second would give ample time to dodge, provided the action begin promptly. It is safe to say that it takes a loon's weight in lead to kill him, and we may call it settled that if a loon does not dodge a bullet, at least the look of the if a loon does not dodge a buner, a-least the lead goes down in the same hole in the water.

Where Ocean Cables are Thickest.

The cable map of the world, prepared by the United States navy department, shows that the Mediterranean is thickly netted with cables west of Malta. So is the North Atlantic between the thirty-eighth and fifty-fifth parallels. The North sea, the Red sea and the Arabian sea have many cables. The only great unbridged spaces are the Pacific, the South Atlantic, and the great stretch of the Indian ocean between Madagascar and Australia. There is no considerable cable north of Stockholm, or south of Nelson, New Zealand. The Black sea is completely girdled by land lines and crossed by one cable. The Guit of Mexico is crossed, though not at its widest, by several cables, and the waters of the West Indies are becoming thickly netted with short cables.

SENATOR MORGAN'S RECEPTION.

He Corrects a False Report Sent Out from Montgomery. BIRMINGHAM, ALA., April 25.-The report sent out from Montgomery, purporting to give an account of Senator Morgan's speech in that city Saturday night last, has aroused great indisnation among the Senator's friends. The Senator himself desires that a deniel be entered for the benefit of his friends throughout the country. He is here to-day, and hands

to the Southern Associated Press the fol-lowing statement: owing statement:
"I have never been more warmly received than at Montgomery Saturday
night. Indeed, the outpouring of people
and their cordial greeting, as well as
their kind attention to all that I said. their kind attention in the aright to ex-pect. Gen. John W. A. Sanford, a dis-tinguished man in this State, introduced me to the audience, heard my speech, and afterwards said to me: 'The reception to you, General, to-night was as remarkable for its size and enthusiasm as any I have for its size and enthusiasm as any I have ever seen accorded to any political speak-er in Montgomery, and I have seen them all for many years. It equaled that ac-corded to Mr. Yancey in 1800, upon his return from his tour in the North in ad-yocacy of Breckinridge and Lane, and that was a notable event in our city. The hearty cheering during the speech, and the wild outburst of applause at and the wild outburst of applause at its conclusion show how your speech and you are regarded by our people. "I do not ask that these statements be sent out by the Southern Associated

Press from any motives of personal van-ity, but I do wish the people to know the truth as to how the principles I uphold are received by the people of Ala-

CONFIDENT OF ITS PASSAGE. Mr. McMillin Says no Power can Defeat the Tariff Bill.

WASHINGTON, April 25 .- "No power in Washington or outside of Washington," said Representative McMillin to a reporter to-day, "can defeat the tariff bill. porter to-day, "can defeat the tariff bill. Any man or set of men who attempts to stand in the way will be run over. This Congress was elected by the people to reform the tariff, and the legislation demanded is going to be had. The bill will become a law in time to go into effect on the lst of July. There is no man strong enought to prevent it, and when the hill is passed the income-tax provision will be found sticking to it tighter than any other. It is stronger even than

than any other. It is stronger even than the rest of the bill."

The spirit of confidence displayed by Mr. McMillin is spreading rapidly throughout the Democratic ranks. Gen-

erally there is a belief that some changes will have to be agreed to which will not be pleasing to the out-and-out tariff reformers, but the fear of the defeat of the bill has almost entirely disappeared. There may be something yielded to the sugar trust, some minor things the kicking Democrats want may be granted, and there is a possibility that the income-tax may be enacted for a limited term of years, instead of being made indefinite as to time of duration.

FIRE IN THE PENITENTIARY.

A Hosiery Factory Operated by Private

Parties Burned, COLUMBIA, S. C., April 25,-Fire this afternoon destroyed the holsery factory situated within the walls of the penitentiary and operated by private parties. The building was owned by the State and was a total loss, there being no insurance. The building was valued at \$8,000. Total loss was \$30,000; incuiding the machinery and stock. The mill was operated by convicts. Owing to the inflammable material of the stock it was impossible to get the fire under control. The con-victs had quit work and had been march-ed to their quarters. There was no ed to their quarters. There was no stampede among them, and some of them assisted the firemen in fighting the flames. The fire is supposed to have been started by a convict who was left to lock up the factory. John firaham, of this city, was one of the principal owners of the mill. The hosiery machinery and stock was insured for \$9,000.

MEXICO MAT RETALIATE

Import Duties Liable to be Levied Against

English and American Goods, MEXICO CITY, MEXICO, April 25.-It is stated that a retaliatory measure is being considered by the Mexican Govern-ment against the United States and England and other countries whose legisla-tive attitude has been in opposition to silver. The plan is to increase Mexican import duties twenty-five per cent. The view taken is that the nations having metalfst standard if they would have strumental in the present depreciation of silver money and values of the country, they must now pay a part at least of the

As was stated in The Times' Washington interview with Col. Mosby in yesterday's issue, he has not visited Richmond for sixteen years, and his present vest is entirely in the way of renewing old acquaintances and associations. He will remain in the city only a few days, and will devote the time to sight seeing and looking up old friends.

When I saw him at Ford's last evening, he was mailing a copy of The Times containing his interview to a friend, and smillingly remarked that he was glad to have it, as it served as a substitute for a letter, and saved him from writing one. Time has dealt gently with Col.
